

Description

Premium chain lubrication for high performance. A high performance lubricant particularly suited for motorcycle chains. It protects against corrosion and wear and its tenacious formulation forms a water-resistant film which is easy to apply and gives long-lasting protection. The lubricant leaves the can in a semi-liquid form, thereby penetrating the chain links and subsequently thickens to a waxy consistency which is not sticky. This ensures that road dirt does not adhere, reducing wear dramatically when compared to polymer chain lubricants.

Benefits & Features

- Highly tenacious-resistant to flinging off
- Protects against rust and wear
- Water resistant
- Penetrates easily, then thickens
- Resistant to adherence of dirt

Directions for Use

Shake can well. Spray onto chain from about 10-20cm. Leave 2-3 minutes before use as grease will penetrate and thicken.

Technical Data

Appearance:	Off-white grease
Odour:	Mild solvent
Contents:	Blend of wax, zinc oxide, naphtha, white spirit and hydrocarbon propellants
Flash Point:	<0°C
Solubility:	Insoluble in water
Temperature Range:	
Relative Gravity:	
Flammability: Health & Safety:	Extremely Flammable Consult Safety Data Sheet (available at tygrisindustrial.com)
Storage:	Below 50°C
Pack Size:	12 x 400ml aerosols

Note
